## Skills

**Languages:** JAVA, SQL, JAVASCRIPT, PLSQL, PYTHON, FRONT END LANUGUAGES.

**Technologies & Tools:** SERVICE NOW, SPRING BOOT, AWS, MONGODB, ORACLE, MYSQL, AWS LAMBDA, AWS CI/CD PIPELINE, AWS SQS, NODE JS, MONGODB, SNOWFLAKE.

## Work Experience

**Merck Triage Team** April 2023 - Present *Software engineer - Madurai*

- Proficient in ServiceNow, JIRA, and Remedy application usage
- Assigning and resolving tickets across multiple Merck applications
- Monitoring different applications across sites in a 24/7 role
- Generating reports to showcase business importance
- creating PPT and working on multiple use cases with state in service now

**HCL INTERNSHIP** Aug 2020- Aug 2021 *Intern*

- Developed a console-based bookstore project using Java JDK and PLSQL.
- Acquired proficiency in Core Java, SQL/PLSQL, and Linux basics.
- Demonstrated skills in Java programming, including object-oriented concepts and data structures.
- Implemented database design, querying, and stored procedures using SQL/PLSQL for the bookstore project.

## Education

**Sastra University - Thanjavur** Aug 2021 - Oct 2024 B.C.A **CGPA: 8.5/10** Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advance Data Structures and Algorithms, Information Retrieval, Image Processing.

## Project Work

- **Create Blog App (2023):** Developed a Blog website using HTML, CSS, JavaScript, EJS, and Node.js. Implemented functionalities for creating, updating, deleting, and viewing blogs, all without a database connection. Both frontend and backend were built from scratch.
- **Farm Store Web Application (2021):** Established a Maven Book store application with JSP, CSS, and HTML for frontend, and MySQL and Java for backend. Employed Spring Boot and API in a microservice architecture. This platform allows farmers and vendors to log in, list, and sell products, as well as buy or rent tools for users.
- **ComputerStore Application (2023):** Created a Computer Management application for inventory control. Users can log in/log out, add, sell, search, and delete products, as well as manage users. Utilized PL/SQL concepts with Oracle SQL engine for seamless data management.

## Certifications

- **Snowflake snow procore certified**
- **MongoDB Associate/ solution architect certified**
- **Oracle PLSQL Developer certified**

## Achievements

- **Awarded as the best performer for the year 2022 by my Project.**
- **Completed HCLTechbee Program with 85% in 2021.**
